Product ID . . . . . : 2A55RDA Report Designer - Gumbo Software, Inc.  
Release . . . . . : V3R4M0  
As of . . . . . : 2017/10/10

PTF ID	Description	Status Date	Superseded By
3D40ALL	Cumulative PTF Package Last Updated 2017/10/10		
3D40001	PID Message File Updates <ul style="list-style-type: none"><li>o Add new application messages to message file for future enhancement.</li></ul>	10/09/17	
3D40002	PID Upgrade RTVGSIPTF Command <ul style="list-style-type: none"><li>o Previously, the Retrieve Gumbo PTF (RTVGSIPTF) command downloaded PTFs using the FTP protocol. Now RTVGSIPTF uses HTTP. Additionally, RTVGSIPTF can access the PTF server through a proxy server, if required by your network, using the new PROXY() parameter.</li></ul> <p>.</p> <p>We anticipate that some installations' networks will have problems accessing the PTF server over HTTP. On a temporary basis, RTVGSIPTF has introduced a PROTOCOL() parameter that allows you to switch back to the old FTP behavior while correcting problems with HTTP service. This parameter will ultimately be removed along with support for FTP as a transport mechanism.</p> <p>.</p> <p>COMPATIBILITY WARNING</p> <p>.</p> <p>HTTP is now the default protocol for PTF retrieval. If your network restricts HTTP access or if a proxy is required for HTTP access the RTVGSIPTF command will fail. If a proxy is required you must fill in the PROXY() parameter. Otherwise you will have to specify PROTOCOL(*FTP) while you resolve problems with HTTP access on your network.</p> <p>.</p> <p>* * * * *</p>	10/10/17
